

# rebel bit

Rebel Bit is an innovative team of musicians, united in the aim of creating a soundscape combining vocal music and electronic experimentation.

Following five nominations for the *Contemporary A Cappella Recording Awards* and five *A cappella Video Awards*, they make their debut in the world of international vocal music with the release of *PAPER FLIGHTS*, an album taken from the original show of the same name.

The purpose of this project is to present common and well-known stories in a brand new emotional, musical and staging disguise, in which the audience's involvement can be deep and effective from the very first sound.

Their sound is affected by the various influences that have marked the artistic growth of the members of the group (from classical to modern and contemporary music), with an eye to electronic experimentation and innovation.

Over the years they took part in some of the most important national and international vocal festivals (*Los Angeles a cappella festival, Boston Sings, Vokal.total, Moscow Spring festival, Vocalmente, Solevoci ..*).

In 2021 they also participated in the eleventh edition of the TV show *Italia's Got Talent*.
